

Declaration of FSC® Certified Timber Supply

Imperial Engineered Oak™ Flooring

Imperial Flooring Australia® declares that **Imperial Engineered Oak™ Flooring** is manufactured using timber sourced from an **FSC® Chain of Custody Certified manufacturing facility**.

The manufacturing facility holds a valid **Forest Stewardship Council® (FSC®) Chain of Custody Certification** under the FSC Transfer System and is authorised to produce and supply products carrying the following FSC claims:

- FSC® 100%
- FSC® Mix

Certification Details

- **Certification Body:** SCS Global Services
- **FSC® Chain of Custody Certificate:** SCS-COC-701224
- **FSC® Trademark Licence:** FSC-C211005
- **Certificate Validity:** 2 January 2025 – 1 January 2030

This certification confirms that the manufacturing facility has been independently audited and operates in accordance with the **FSC® Chain of Custody Standard (FSC-STD-40-004)**, ensuring certified timber materials are responsibly sourced and fully traceable throughout the manufacturing process.

Imperial Flooring Australia® is committed to partnering with certified manufacturers that support responsible forestry, sustainable forest management, and environmentally responsible sourcing practices.

Disclaimer

This declaration is based on the current valid FSC® Chain of Custody certification held by the manufacturer of **Imperial Engineered Oak™ Flooring**. It confirms the certification status of the manufacturing facility and its production system. Product-specific FSC® claims apply only where the relevant product is supplied as an FSC® certified product in accordance with applicable FSC® Chain of Custody requirements.
